

The #1 Selling Rental Software

Thrifty Top Ten Reasons to Choose TSD

1. Outstanding Support Services

TSD Support provides personalized attention and innovative approaches to your concerns every time you call our toll free Support Lines, 7 days a week. Whether you are calling during our daily office hours or with ASP network issues 24 hours a day, your support questions are addressed by our in-house team of rental service professionals.

2. Superior Data Security

Superior Data Security - TSD's co-location partnership with NaviSite provides the highest level of reliability for your business data. This technology offers state-of-the-art data protection with complete redundancy, and 24 x 7 monitoring of hardware, power and connectivity.

3. Daily Activity Report

Daily Activity Report- Print Report Options gives you the option to print in a summary format. Provides a day-by-day and month-by-month snapshot of your company's operational information.

4. Source of Business Analysis

Designed to show you the source of your business, including reservations and rental agreements. In version 3.6, you will also have the ability to sort by pickup date, and view specific rate and rate code information.

5. Location Quick Change

Location Quick Change - In version 3.6, those with appropriate access can toggle from one location to another utilizing an easy drop down menu.

6. Leased Units

Gives you the ability to handle leased units differently than purchase and buyback programs. Several popular reports have also been enhanced to accommodate this type of program including Fleet Depreciation, Scheduled Depreciation, Purchased Units, Sold Units, and Fleet Financial Position Report.

7. Message Center

TSD's new messaging feature allows you to send, forward, and reply to messages to or from any employee or group of employees at any one of your branches. Set up Groups to meet your individual location needs, ex. Managers, City Managers and Rental Agents.

8. Forecast Availability Report

Allows changes to fleet numbers, reservation numbers and many other pertinent fields to accommodate your known business case history, and adjust fleet size for known infleet and outfleet dates.

9. Transaction Audit Reports

Transaction Audit Reports - These reports are designed to provide you detailed analysis on rental activity, revenue and employee performance. Examples include Same Employee- Rez to RA, Discounts, Coupons, Non-Swiped CC Transactions, Contract Rate Different from Reservation Rate, Contracts with Discount and Selected Extra.

10. Daily Activity Toolbar

Review your specific location information at a quick glance.
