

The #1 Selling Rental Software

TSD RENTAL Top Ten Reports

1. Fleet Utilization Report

Great for fleet planning; list unit activity during a specified period, with a detailed analysis of the utilization of each unit in your fleet.

2. Units Due In Report

Plan vehicle cleaning, counter help scheduling and re-rental of vehicles; lists all rented units expected back between the From Date and the To Date.

3. Rate Out Analysis

Lists the rates assigned to contracts opened during the period specified. Provides detail on the average, minimum and maximum rate information for each rate period.

4. Work In Process Report

Review whether the amount of money deposited or the amount of the authorizations toward a contract is enough to cover the projected total bill in accordance with your company policy.

5. Forecast Availability

Provide forward projections on reservations booked based on unit class. Monitor future bookings for short & long term.

6. Maintenance Due Report

Find information on current and past maintenance for every vehicle in your fleet and plan your upcoming fleet maintenance needs.

7. Daily Business Report

This report is the foundation of all financial records stored in TSD RENTAL. Recounts all of the charges and payments that have occurred during a specified period of time. Maximize unit revenue and minimize human error by creating a Daily Business Report at least once a day.

8. Source of Referral Report

Track the commission amount, commission percentage rate, contract rate revenue and contract mileage revenue for a specified period.

9. Units Available Report

List all active units that are not currently rented. TSD RENTAL updates the information on this report automatically as you open and close contracts.

10. Estimated Profit & Loss (P&L)

Estimate the Profit or Loss based on revenue, disposal gain/loss, depreciation expenses, maintenance expenses, and user-defined monthly expenses.

TSD RENTAL Management Software offers the most comprehensive solution for building a profitable dealership rental business.

The #1 Selling Rental Software

TRAC Dealer Feedback

"We are pleased with the technology and professional backing TSD delivers to our dealers..."

*Toyota Motor Sales, U.S.A., Inc., CA
Corporate Offices for Toyota Rent A Car
John Bauer*

Winning Technology Solutions

"We have used the TSD RENTAL system for three years. The TSD system makes my job so much easier. It keeps my rental customers happy because all of their information is stored and I can have everything ready for them in a matter of minutes, which makes us look more professional."

*Allan Nott Honda Toyota, OH
Camilla Nichols, Rental Manager*

"I have been using TSD RENTAL Software for over one year now. It has been extremely helpful in managing my fleet, and the Rental Agreement Wizards assist in making sure all of the necessary information is gathered before the rental agreement is opened... Most useful to me are the Fleet Utilization, Profitability and Maintenance Due reports."

*Burien Toyota Rent-A-Car, WA
Krissy Stallcop, Rental Manager*

"TSD has been an invaluable partner to the success of our company... The management of our business flows smoothly by use of in-depth reporting and accounting systems. And when we've needed help the TSD customer support system has always done an outstanding job of assisting our staff. I highly recommend TSD for rental software & service."

*SouthTrac Rent-a-Car, Inc., TX
Louis G. Gray, General Manager*

"The level of service between Toyota and TSD is one that goes beyond the normal client/supplier relationship. TSD provides TRAC with the professional expertise and tools necessary to obtain a higher level of excellence."

*Toyota Motor Sales U.S.A Inc.
Jay Spencer - National Rental & Lease Manager*

"With 72 vehicles in our fleet TSD Software gives us all we need to run a more efficient TRAC operation. We have repeat customers and once we have them in the system we can quickly and efficiently serve them faster and better. The Reports that can be generated from the TSD system are very helpful for Fleet Control, Inventory, Sales, Accounting, Utilization and many other Reports that we use to run our TRAC operation."

*Toyota Knoxville, TN - Jerry McCarter,
Rental Manager*

"TSD RENTAL Software has incredible flexibility that allows me to stay up to date on how each rental location is performing. Daily reports are easily emailed to the general managers and keeping track of important details such as vehicle maintenance is a snap.

...TSD RENTAL Software combined with the Reynolds & Reynolds Bi-Directional Interface is a great time saver for customers and streamlines the billing process at our busy dealership... P.S. The Support Department is great!"

Modern Toyota, NC - Bill Todd

TSD RENTAL Management Software offers the most the comprehensive solution for building a profitable dealership rental business.
